Welcome to the world of customized comedy, where the humour is created especially for YOU.

Zandra Bell, one of the most brilliantly funny humorists on the North American conference circuit, is well known on the business scene for creating original, intelligent hilarity, customized specifically to her clients' industry, profession or theme - and performed in the persona of the charmingly outrageous, hit sensation.... "Shirley Best", a campy yet charismatic fifty something housewife embarking on a search for self fulfillment.

Everyone has a "Shirley" in their life. She is your mother... times ten, the person behind you in the Wal-Mart checkout lineup, the eccentric aunt that fuels the other relatives' gossip, but garners their reluctant admiration for telling it like it is. One delighted reviewer described her as a cross between "Oprah, Anthony Robbins and Roseanne".

My name is Zandra Bell, and I'd like to be your corporate comedy consultant. Working together with contact people from your organization I begin by doing extensive research on your industry or business. I then create and perform an effective, tasteful and hilarious "humour in the workplace" presentation specifically designed to suit your company's needs.

My goal is to touch not just the "funnybone" of my audiences but their hearts as well, to leave them with something lasting they can take back to the job after the performance is finished. My goal is to make a difference in their lives.

So go on, make your event exceptional!
